

**Brida Participants**

Control  Intervention  "Flipping the switch" starts a new recruitment window. NOTE may want to make this happen automatically (i.e. every 30 days).

Export Data Manage Dashboard Users Log out

Recruitment Window 3 (active): Intervention Arm - 30 days (Started 04/01/17) - 27 participants recruited  
 Recruitment Window 2: Control Arm - 30 days (Started 03/01/17) - 30 participants recruited

Some considerations:

- Viewing surveys might be a difficult to implement
- Discuss whether to make the recruitment window switch automatically
- Ordering by surgical consult and surgical date will be by time (soonest first)
